

12<sup>th</sup> February 2016

Dear Westminster Council,

I am sure that we need more places for refugees to stay. It is not fair that some people have to sleep on the floor outside and others have a warm bed to sleep in.

Firstly, there needs to be more places for refugees because some people have to sleep on the floor and some people have no food. For this reason I demand for more shelters for refugees. Surely you agree that they have no home and we do. We need to build more it must happen I demand it! Some people are suffering and cannot buy any food for themselves. This is such a big problem but no one cares or realises it and you are the only ones that can change and fix it.

Secondly, some refugees and homeless people have to travel because they are not allowed in places. They sometimes need to travel for days just to get away from places they are not allowed in certain spots. As you can see we need more shelters for refugees and homeless people.

Yours faithfully

Heidi Ventura
