

12th February 2016

To Westminster Council,

I think that you could change the environment by having more statues and monuments because that way it makes people go towards them and read about them. Also, if you make more statues it will make the area more interesting for everyone. Besides, they make the environment more pleasant.

As you can see, I think it is going to be more pleasant for people to see lots of statues. For example, I would like to see a carbon sculpture in the Westminster area.

Yours faithfully,

Yoan Katev
