

What is Bullying?

Bullying is not a nice thing to do. We think people do it because they like seeing other people get hurt and they don't think about the person's feelings. Some people might think it's funny , but they don't know how the person feels because they are too busy getting them embarrassed in front of everyone.

It's not nice to trip people over or hurt them because it will hurt the person's feelings and also if they tell of you by the teacher don't try to blame it on them.

Bullying can be, kicking, hurting, intentional and repetitive, It could also be calling names. Sometimes people send emails to other people and the email is very hurtful, also sending nasty texts and bad photos. Maybe sometimes you think , oh I'm home ,but still they might send bad things .

It's safer to ask an a person you trust for example, an adult, a teacher parents or friend because if you don't tell anyone it will just get worse ,but if you do you might stop being bullied.
