BMX Demonstration

Yesterday, we had a demonstration by two professional BMX riders in our school playground. The children loved it and found it really inspiring! The bikers explained to the children how vital cycle helmets are, and how they can literally save lives. Here they are doing some of their amazing tricks:

We are also delighted that all our work with Bike It, the Play Street event and safer walking with Westminster Road Safety has earned us the GOLD level TFL Stars award. Thank you to Mrs Leith for co-ordinating all of these excellent activities and helping us to be safe and healthy every day.

Y6 Wetherby workshops

This week, Year 6 have been working with Wetherby Prep school in Science and Classics. They visited the Science labs on Tuesday to dissect hearts, and then had presentations in school from Wetherby Classics students on Ancient Greece. We are so grateful for this mutually beneficial partnership.

Summer 2 Dates:

Coffee Morning Reading Course

Next week is the final week of the Reading Course.

Fundraising

Thank you to everyone who wore green last Friday to raise money for the Grenfell Tower victims. We are still counting the money, along with the £50 raised by Year 6 in their bake sale. Please do feel free to add your thoughts and prayers to our prayer wall in the school hall, for everyone dealing with a difficult time in London at the moment.

We are supporting Westminster Council's NO IDLING scheme to improve air quality. Please do not leave your engine running if you have to drive near to our school. Thank you.

Wishing you a happy weekend,
Emily Norman, Headteacher
