

# Behind the scenes of Year 6!

Have you ever wondered what goes on in Year 6? Well this is the blog for you.

Today I'll be telling you all about Year 6 and how good it is. Year 6 is a hard-working class because we do SATs so we're trying our hardest in all subjects.

Year 6 is a class that does SATS in English and maths but all subjects are important in Year 6.

The reasons why it's good are because we're good listeners; always have ideas and always learn new things. Our understanding is outstanding due to the fact that we pay attention to everyone and everything, and use every opportunity to learn as much as possible.

## The top ten skills we all have!

Our skills are outstanding because we try our hardest to learn the best we can and accelerate to the next level.

1. We try our hardest during every lesson.
2. We're resilient in all lessons.
3. We ask for help if we need it.
4. We try to be positive.
5. We enjoy doing lessons.
6. We take pride in our work.
7. We help others.
8. We play with others.
9. We do clubs after school.
10. We find school fun.

## SECONDARY SCHOOL!

Year 6 is an amazing class and next year Year 6 will go to secondary school to continue learning up to doing GCSEs and beyond. At the start of Year 6 you will go to visit schools to see if you like them. Then you can apply and you will need about 3 choices. You will find out what secondary school you will have in March and you will go to the Westminster website to find out.

I can't wait to go to secondary school because it will help me in my future.
